

SHEAR NUTS

DATASHEET ITEM 9305

FASTENERS | MARINE HARDWARE | FITTINGS | SOLAR

ITEM 9305

TECHNICAL SPECIFICATIONS

Shear nuts are one of the most popular safety nuts. The high level of security is guaranteed because their drive breaks off after a certain torque has been applied to the nut. This means that fastened material is

secure and protected against dismantling and theft. The shear nut thus creates a permanent connection, as it cannot be undone even with special safety tools.

Material	Stainless steel
Quality	A2 / A4
Surface	Blank
Product group	Safety elements

YOUR ADVANTAGES

EASY HANDLING

HIGH SECURITY AGAINST UNINTENTIONAL
DISASSEMBLY

PRACTICES

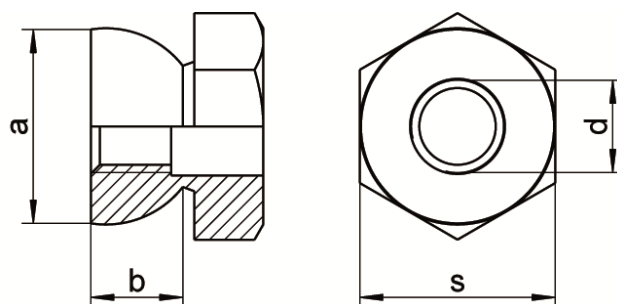

FENCE CONSTRUCTION
