## Declaration on Conflict minerals.

Ladies and Gentlemen,

Thank you for your inquiry regarding conflict minerals.

According to EU Regulation 2017/821 of the European Parliament, European companies are required to provide information on their use of so-called conflict minerals. These include tantalum, tin, tungsten and gold from e.g. the Democratic Republic of the Congo and its neighboring states (Angola, Burundi, Central African Republic, Rwanda, Sudan, Tanzania, Uganda and Zambia). The objective of this scheme is to stop financing the operating armed groups of the DRC region through raw material extraction and trading. This should be achieved by avoiding raw materials procurement from the conflict regions.

INOX MARE Srl is aware of its social responsibility in terms of environment, safety, health and observance of human rights.

We do not directly import conflict minerals, neither do we have any information that our products contain minerals that originate from this conflict region.

Please understand that, due to the large amount of enquiries, we cannot complete any special forms. We hope that this declaration contains the required information and we would like to thank you for your confidence and the good collaboration.

If you have any further questions, please do not hesitate to contact us.

Yours sincerely  
**INOX MARE srl**
